Made to measure

Only with 'made to measure' doors can you achieve the goal of a seamlessly fitted room. Bespoke fitting optimises the cupboard space available, the look and feel delivered to you through a tailored design assures you of a space that 'works'. By choosing seen end panels in vinyl, the final fitted room delivers quality from every angle.

Our doors can be made to 2610mm in length. There is no need for designers to fill a panel with plasterboard or chipboard. Designers can now keep the design of the room consistent and not compromise their work. Work tops can be made any shape between 3000mm x 1200mm.

Board Sizes

18mm Gloss - 2610 x 1200mm - Gloss Premium Board
18mm Standard - 2610 x 1200mm - Standard Board

3mm - 2440mm x 1200mm - Raw Back
9mm - 3000mm x 1200mm - Raw Back
18mm - 3000mm x 1200mm - Raw Back
22mm - 2620 x 1200mm Raw or Ivory Back

* Any raw boards can be foiled both sides.

*Please note that using Gloss foil, you may lose some definition
